Abstract

The researcher of expertise with cutting edge field has prevailed recently because their breaking through working in Research &Development department at unit. So the study on them is able to not neglected problem lied in front of our department leader to do endeavour known how to deal with the matters efficiently and successfully for the sake of satisfying each other with the justice fair transparent measure. The collaborative spiritual force is going to be wielded in units whose effectiveness has an important factor in innovating academic and economic significance. Like a scientist proceeds a project and he finds some new phenomenon whose achievement will communicate with others and release his finding in prestigious journal, which need the whole team's collaboration urgently or apply for patent in Patent bureau quickly. So the cooperation spiritual can boost the department disciplinary innovation which may let us have progressive capability to finish more ones in future, at the same time the capital for searching and developing foundation has to be afforded more for the sake of occupying cutting edge advance field continuously and frequently.

Keywords: searching; economic; collaboration; initiating; scientist; innovation; sustainability

1. Introduction

The researcher of expertise with cutting edge field has prevailed recently because their breaking through working in Research &Development department at unit. So the study on them is able to not neglected problem lied in our front for our department leader to do endeavour. On the other hand, the scientist will publish their research achievement in famous journal with a certain skill for mastering knowledge by the audience. So the formal style may be known by the author before they start to write their achievement. Overview, the both of them will become this study's destination for our scientists to grasp knowledgeable skill using in innovative research and writing article urgently. The new innovative articles are ongoing constantly if you search for Baidu academy etc.. So that we must consider the important matters so as to widely open our views for us to write more excellent papers in journal. Only if we keep up with the timely steps can we still maintain competitive ability to continue to progress our research achievement sustainably, which may become the destination in this paper. There are still many new papers has been exhibiting constantly in internet even library

outside therein we need to find and seek new source to complete research work frequently. Like many famous scholars who can ongo to proceed their research and development can write their research achievement in prestigious journals for requesting better position in college and fund to go on searching inwards. So our units must help them to complete their research being ongoing besides affording them good environment for them to search the valuable research frequently. In modern society the economic income will become an important factor for us to pursue continuously so our behavior around economic aspects will dominate our main behavior whose judgement and action force will affect our capital size. We can deal estate like the book <Poor dad and rich one> where the main content could pursue estate dealing with having low risk. Though current house price lies in low depressive status the national council still advocate the dealing status for the sake of improving now price with certain power policies. So we can maintain that one since the price is still not so low. Because different zone has various price which may help us avoid risk merely. On the other hand the stock can provide certain power for our gambler to deal with because it has till meaning to operate

short terms and long ones in light of different situation. We can contact some occasion to buy commission right to get help often so that attraction will offer largely us to buy some fund or stocks. Meanwhile we should see the artificial intelligence software like Six Pulse Sanity Sword Qilin Choosing Stocks Software etc. which is still under control by incident reason maybe specialized men who can not be responsible for.

2. Discussions

2.1 World GDP comparison

The economic status will afford scientific development whilst the science may offer the indicator for developing economy and finance on the contrary. So that the former must be sure the enough materials etc. substantial help and the latter should base on the actuality of economic level and initiate much innovative. As below we will discuss the economic and scientific developing data to evaluate the situation now. The scientist is sure that they may solve sophisticated mathematics problem met in front of us which prevents from further progress. So we need to pay more attention to their capability and efficiency where the modernization request will be producing.

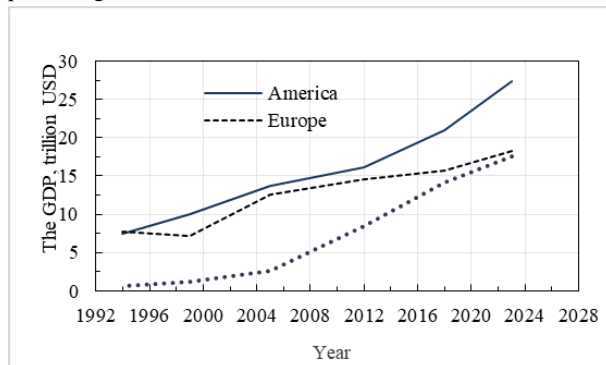

Figure 1 The America Europe & China's GDP in light of years.

The America Europe and China's GDP(gross domestic product) has a trend increased in Figure 1 whilst the former and last one is stabilized and the middle one is fluctuated somehow. [3] The China has indicated the increase was arriving 27 times from 1994 to 2023 meantime the America acquired 3.6 times enhancement and Europe reaches 2.3 times raising with synchronization. The American GDP indicates 27 trillion USD and Europe affords 18 trillion USD, and thus China provides 17 trillion USD whose turn lies in the First, second, third accordingly.

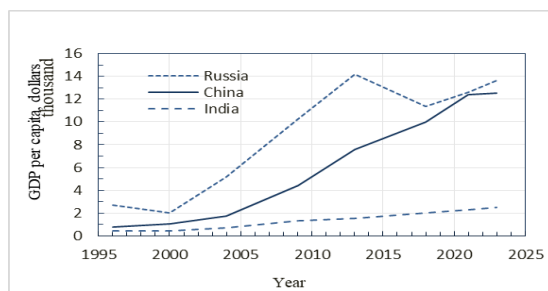

Figure 2 The Russia, China & India's GDP per capita in light of years.

The Russia, China & India's GDP(gross domestic product) has a trend increased in Figure 2 whilst the China and India one is stabilized and the Russia one is fluctuated somehow. [5] The China has indicated the increase was arriving approximate 16 times from 1996 to 2023 meantime the Russia acquired 5 times enhancement and India reaches 6 times raising with synchronization. The China GDP indicates 12,300 USD and Russia affords 14,000 USD, and thus India provides 2,700 USD whose turn lies in the First, second, third accordingly in 2023. At the same time, the speed rate of Russia, China, India GDP per capita would indicate 8.5%, 0.9%, 10.4% between 2023 and 2021 accordingly.

2.2 GSARJEBM release

2.2.1 Vol 3, Issue 11 (November 2024)

The GSARJEBM Vol 3 & Issue 11 (November 2024) that names Global Scientific and Academic Research Journal of Economics, Business and Management has published below contents. 1. The Influence of Competitive Pricing Strategy on Business Performance among Furniture Fabricators in Nyamagana District, Tanzania; 2. Searching for Economic and Financial Innovation Developing & Travelling Visa-free with Sustainability; 3. Comparative Analysis of Earning Management Before and after Implementation of IFRS(International Financial Reporting Standards) 9 (Empirical Study of Banking Sector in Emerging Market); 4. Stable Oxygen and Hydrogen Isotopes for Groundwater Sources along River Nile, Dongola Basin, Northern State, Sudan; 5. Impact of Risk Management on Profitability of Commercial Banks: A Case of Nyamagana District, Mwanza-Tanzania; 6. Consumers' Rights Protection Awareness and its impact on Behavior: A Case of Street Food Vendors Using Liquefied Petroleum Gas in Ilemela District, Tanzania; 7. The Effects of Traditional and Social Media on Brand Awareness: A Case Study of Coca-Cola in Mwanza, Tanzania.

2.2.2 GSARJMS Vol 3, Issue 11

The GSARJMS Vol 3 and Issue 11 which names Global Scientific and Academic Research Journal of Multidisciplinary Studies has contained as below ones. 1. The Searching for Recruiting University Postdoctoral and Developing Departmental Ability Sustainably; 2. Development of Malo Maretong Smart Board Learning Media to Enhance Numeracy Skills in Children Aged 5–6 Years; 3. Enhancing Self-Protection Through a Learning Module on Violence Prevention for Children Aged 5–6 at TK PEMBINA HKBP Tarutung; 4. The Influence of the Field Trip Method on the Independence of Group B Children at Beringin Permai Kindergarten; 5. Development of Early Childhood Dance to Improve Gross Motor Skills in Children Aged 5-6 Years; 6. Integrating Health and Faith: The Role of Christian Early Childhood Education Programs in Promoting Child Growth and Development; 7. Development of Graphic Design-Based Fun Cooking Standard Operating Procedures for Early Childhood Aged 5-6 Years; 8. Effect of Heat Stress on Physiological Behavior in Dairy Animals and Poultry; 9. Searching for Educational Concepts in University and Immigrant Policies in America Sustainably. [1]

2.3 Introduction of committee and Journals faith

GSAR publisher provides high quality published services and the service attitude and level of the Journal editors are the first class who serves authors is an important way to achieve high quality Journal development which means that the Journal publisher is building a good reputation among researchers which not only has a good academic influence, but also gives young authors confidence and encouragement with the first-class humanistic care. Mentioned is written by Taishan Yang. Meanwhile it is worth to publish academic research with GSAR as it stands to upholding good ethical conduct and zero tolerance to plagiarism. The publisher is providing quantity service delivery in the academic fora and as such providing to be competitive to strike a balance with big players in disseminating academic work globally which is written by Collen Kajongwe. At the same time the Global Scientific and Academic Research Publishers is an international publisher committed to providing a ‘peer reviewed’ platform to outstanding researchers and scientists to exhibit their findings for the furtherance of society to provoke debate and provide an educational forum. The Global Scientific and Academic Research Publishers is Running by GSAR PUBLICATION (OPC) PVT. LTD. led by a team of international experts in the Editorial Board. All articles undergo a thorough evaluation process while following all ethical guidelines to maintain the highest publishing standards. Publication integrity is one of the principle responsibilities we take. The GSAR Team strictly review suitability, originality of manuscripts for publication. Our Editors maintain transparency of research; assess manuscript for scientific value; ensure that content is free from any manifestations of discrimination; evaluate information objectively without any commercial interests.

Our publications scope covers various disciplines related to the science, medicine, and technology. Moreover, because of the broad range of articles, journals are updated on the regular basis. The organization was founded in 2021 with the sole reason of publishing qualitative open access journals that everyone can easily access online without financial obstacles. [2]

2.4 Automotive prosperity

Table 1 The Automotive group ranking former ten in world (Jan.-Sep. 2024) [4]

No.	Groups	World sale numbers, million
1	Toyota	6.70
2	Volkswagen	6.46
3	Hyundai-Kia	4.95
4	GM	4.25
5	Strangis	4.10
6	Ford	3.,28
7	Honda	2.86

8	BYD	2.73
9	Nissan	2.66
10	Suzuki	2.36

The world automotive group ranking with first ten has been issued in Jan~Sep 2024 like Table 1 where the Toyota, Volkswagen, Hyundai-Kia, General Motor dominates from 6.7 million sale to 4.25 million one and from the first to fourth position whilst the BYD, Nissan, Suzuki occupies from the eighth to tenth position.

2.5 World rich-men ranking

On Friday the Tesla stocks price increases largely 5.34% and at last end 389 dollars per stock which makes its accumulating increase to attain 57% up to now in this year. This strong pushing would make Tesla market value to break through 1.22 trillion dollars. As continuing to increase company stock price the Tesla chief execution Elon Musk personal treasure arrives evident increase. The world rich men ranking is concluded as Table 2 [6] where the Elon Musk as Tesla company president possesses 368 billion USD occupied the top one position stably with exceeding the second Jeff Bezos 122 billion ones. The YTD(year to date) change indicates extraordinarily 133 billion dollars dominated number one one as well.

Table 2 The world rich men rank, billion dollars(unit).

No.	Name	Total net worth	Last change	YTD change	Country/region	Industry
1	Elon Musk	368	8.2	133	USA	technology
2	Jeff Bezos	240	2.2	63	ditto	ditto
3	Mark Zuckerberg	215	1.6	87	ditto	ditto
4	Larry Ellison	202	-0.9	79	ditto	ditto
5	Bernard Arnault	174	1.0	-33	France	consumer
6	Bill Gates	166	0.6	25	USA	technology
7	Larry Page	156	-1.2	29	ditto	ditto
8	Steve Ballmer	153	1.6	22	ditto	ditto

9	Warr en Buffe tt	147	0.5	27	ditto	diversif ied
10	Serge ry Brin	147	-1.1	27	ditto	technol ogy
11	Jenso n Huan g	127	-0.06	82	ditto	ditto
12	Jim Walt on	118	0.8	45	ditto	retail
13	Ama ncio Orteg a	116	0.4	28	Spain	ditto
14	Rob Walt on	115	0.8	43	USA	ditto
15	Alice Walt on	114	0.6	44	ditto	ditto
16	Mich ael Dell	114	-0.2	36	ditto	technol ogy
17	Muk esh Amo bani	100	0.7	3.7	India	energy

2.6 University of Toronto facilities

As one of the most prestigious higher education institutions in Canada, the University of Toronto is highly regarded for its campus environment and facilities. The following will give you a detailed introduction to the characteristics and advantages of the University of Toronto in this respect.

1. Beautiful environment: The University of Toronto is located in the heart of Ontario, Canada, and the surrounding campus is recognized as one of the most livable cities in North America. The campus is lined with trees and dotted with lakes and flower beds, giving people a peaceful and pleasant feeling.
2. State-of-the-art facilities: As an institution with a long history, the University of Toronto is committed to providing state-of-the-art educational facilities. The campus has modern classrooms, laboratories, libraries, computer centers and other facilities. Students can make full use of these resources for academic research and practical activities.
3. Library: The University of Toronto Library is one of the largest and most complete in North America.

Among them, Robson Library is one of the main libraries of the school, with a rich collection of relevant literature and materials in various subject areas. Students can easily access the academic resources they need through the library.

4. Library environmental convenience: It has the world classic journal and book which may afford many useful information to under-graduate, graduate student, faculty research references with utilizing convenient procedure or certificate. There are many study rooms for opening to undergraduate students to study with quiet environment for high efficient study or research in broad space. So they can read and hear the necessary knowledge and interest aspects to go on enjoying their examination's preparation period especially.
5. Laboratory facilities: The University of Toronto invests heavily in scientific research, so its laboratory facilities are very advanced. Whether it is the natural sciences, engineering technology or social sciences, there are corresponding laboratories to meet the needs of students and teachers. These laboratories are equipped with the latest instruments and technical support, providing good conditions for research.
6. Student Activity Centre: The University of Toronto focuses on cultivating well-rounded students, so there are a variety of student activity centres on campus. These centers provide students with a variety of extra-curricular activities such as sports, arts performances, and club organizations. At the same time, there are gym, swimming pool and other sports facilities for students to relax. [7]

2.7 University of Toronto academic environment

The University of Toronto has a wide and in-depth research field, covering the natural sciences, social sciences, humanities and arts and other fields. The school has an important position in the fields of natural science such as life science, medical science, engineering technology and information technology. At the same time, in the social sciences, the University of Toronto's economics, psychology, sociology and other majors also enjoy a high reputation. In addition, the school also has excellent research results in the humanities and arts fields, such as literature, history and philosophy. [8] So they maintain the excellent academic condition whose degree affords not only in science & engineering department but also in humanity and art science department achievement through developing many years educational experience. Currently they provides almost all of the first quality and level disciplinary experience and knowledge for under-graduate student graduate one post-doctoral station visit scholarship etc. systematic mechanism. So in there we can freely process all that we can be willing to do the experimental device and teacher like doctoral tutor and associate professor, assistant one etc..

3. Conclusions

With regards to finishing the modernization in China the scientist number must expand further than current. So human resource department and president needs to seek more scientists in all over the China and oversea which dominates an important factor for us to progress. The researcher of expertise with cutting edge field has processed their breaking through working in Research & Development department at unit. So the study on them is able to not neglected problem lied in our front for our department leader to do endeavour. On the other hand, the scientist will publish their research achievement in famous journal with a certain skill for mastering knowledge by the audience. So the formal style may be known by the author before they start to write their achievement.
